WATERBOURNE EPOXY DISPERSION

TECHNICAL DATA SHEET

Morgan Epoxy Resin 53

MER 53 is a 53% solids non-ionic waterborne dispersion of solid epoxy resin type Bis A epoxy. The resin contains a low level solvent designed for use in traditional low VOC, low odor epoxy coatings.

Property	Units	Value
Wt per epoxide	g/eq	500 -600
Viscosity	cP	1000 - 6000
Solids	%	52 - 55
Density Solution	lbs/gal	9
Density Solids	lbs/gal	9.7
Appearance		Opaque white liquid

Price: \$.79/lb.
